

The New Perio Medicine Protocol - Consistently Better Patient Outcomes

Dr. Timothy Donley

COURSE DESCRIPTION:

Significant numbers of patients are walking into our offices every day with legitimate periodontal treatment needs. There are now more than ever compelling reasons to address these needs. We have the technologies and abilities to address these needs better than ever before.

The success of the periodontal portion of your practice is going to depend on your ability to do three things:

1. Identify patients in need of care.
2. Motivate them to follow through.
3. Use a therapeutic approach that gives your patients the maximum chance to achieve and then maintain a preferred level of oral health.

Attendees consistently rate this course as "excellent."

This course will show you how to do all three. You will learn what we can now say for sure about links between perio disease and heart disease, diabetes, pre-term low birth weight, arthritis, obesity, etc. Then learn how to incorporate these findings into a risk based approach to periodontal diagnosis and treatment that will work in your practice. You will leave with a clear understanding of what to use and when to use it.

SEMINAR AGENDA:

Advantages of a risk-based approach

Determine tx aggressiveness
Motivate patients

Perio and systemic health

The latest on the links (diabetes, cardio, obesity, stress, arthritis, etc.)

Priority patients

Which patients we should be treating differently
How to collect the necessary info

The new message of dentistry

What to tell patients
What to give patients
Marketing materials you can use in the office

New biofilm based treatment philosophy

Which debridement method works best
The new goal of treatment

Adjuncts: what to use/when to use them

Local antibiotic therapy
Host modulation therapy
Lasers for debridement

Standard of care treatment protocol

Preferred recall approach
When to treat, when to refer

Oral hygiene

Finally, a sensible approach

Where to go from here

What to do starting tomorrow

ADVANCE NOTICE

SATURDAY
OCTOBER 22, 2011
DE 9347

CLINICIAN:

Timothy Donley DDS, MSD, is currently in the private practice of Periodontics and Implantology in Bowling Green, KY. After graduating from the University of Notre Dame, Georgetown University School of Dentistry and completing a general practice residency, he practiced general dentistry. He then returned to Indiana University where he received his Masters Degree in Periodontics. Dr. Donley is the former editor of the Journal of the Kentucky Dental Association and is an adjunct professor of Periodontics at Western Kentucky University. He is a lecturer with the ADA Seminar Series. Dentistry Today recently listed him among its Leaders in Continuing Education. He lectures and publishes frequently on topics of interest to clinical dentists and hygienists.

Continuing Dental Education at the University of British Columbia designates this activity for 6 continuing education hours.

Continuing Dental Education at the University of British Columbia is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.

DISCLAIMER: Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia.

Fee in full must accompany registration. The tuition fee is deductible for Canadian Income Tax purposes. Registrants withdrawing up to 72 hours prior to the course will be refunded less a \$50 handling charge. Fees will be refunded only in exceptional cases after the course date and written refund request must be made.
