

## Clinical Skills Enrichment Course(CSEC) for Foreign Trained Dentists

LIMITED ENROLMENT

**Dr. Goli Khorsandian, Program Director**

### LECTURE SYNOPSIS:

The Division of Continuing Dental Education at The University of British Columbia is the first institution in Western Canada to offer a unique seven-day preparation course for Foreign Trained Dentists who are interested in participating in the Clinical Skills component of the NDEB Equivalency Process.

This course provides Foreign Trained Dentists both didactic and hands-on modules. Participants in this seven-day course are provided with exact manikins and typodonts to practice their clinical skills in an exact clinical setting to the NDEB Clinical Skills component of the NDEB Equivalency Process.

Experienced faculty members will teach all assessment requirements of the Clinical Skills for the NDEB Equivalency Process didactically. In addition, participants will gain individual training by a clinical instructor. (4:1) This individual instruction allows participants a greater understanding of the fundamentals of restorative, fixed, and endodontic dentistry.

A continental breakfast of muffins, tea, juice, and coffee, will be served prior to our starting time at 7:30 am each day. A light lunch will be provided at 12:00 pm. The sessions will finish at 5:00 pm each day with multiple breaks in between.

**Please note that this preparatory course does not guarantee that the participant will pass or be successful in the NDEB Clinical Skills component of the NDEB Equivalency Process. This course is purely intended to provide participants of the NDEB Clinical Skills component of the NDEB Equivalency Process, with the opportunity to use the facility with supervised guidance to enrich their clinical skills.**

### FACULTY:

**Dr. Goli Khorsandian, BA, MA, DMD**
